A Robe moving light rig was used by Clifton Productions to illuminate the Gala Dinner of the 2009 Perth Truck & Trailer Show, staged in the Ballroom at the Perth Convention Centre (PCC), Australia.

The Dinner event's lighting design was created by Michael Wood of Clifton Productions' Perth operation. It utilised 8 x Robe ColorSpot 1200ATs, 8 x Robe ColorSpot 700E ATs and 8 x Robe ColorWash 1200ATs which beamed and projected a vast array of visual effects and colours around the room.

LED wash lights illuminated the underside of the stage, and there was a centre-stage projection screen, together with LED panels around the perimeter of the room for additional eye-candy.

The ball was attended by 400 VIPs and exclusive guests.

"We had rave reviews from many of them"
reports Cliftons' Ed Matthews.

"Our Robe products continue to impress!"

Clifton Productions was the official rigging and lighting contractor for the biannual Truck & Trailer Show. The 3-day exhibition occupied 6 pavilions of the PCC venue, showcased a huge selection of brands and attracted over 8,000 visitors.
