

ColorWash 250 AT™

A completely new optical system makes this fixture 50% brighter than its predecessor, the Wash 250 XT. New ultra smooth CMY colour mixing offers a fantastic spectrum of hues. A motorized zoom effect ranges from 8° - 32° and the extremely silent cooling system and movement make this fixture a superb choice for TV and theatre. The colour wheel offers 6 saturated colours + open, using Robe's renowned "SLOT&LOCK" system. Frost filter and a beam shaper are available on the effect wheel. As with all other Robe AT moving heads, 16-bit resolution is available for movement, colour wheel positioning and dimming.
